

University of Maine at Augusta - Faculty Grant & Project Proposal Form

Prior to submitting an application or requesting funding, please complete and submit this form to your Academic Dean. The Dean will then circulate the form for the requisite signatures and reviews. Your Academic Dean, Director of University Advancement and the CFO will likely need to set-up meetings with you to discuss various aspects of the proposal.

UMA cannot apply and/or accept any external dollars without a thorough review of what UMA would be committing to in the event we were to secure the external dollars and commit to the intended grant activities.

No expenses associated with grant activities can be paid until a positive budget balance exists.

Title of Grant Proposal or Project:

Source of External Funding (federal, state, other):

Submission Due Date:

Project Managers &
Contact information:

Department or College:

Project description (please include any call for proposals, applications that outline the proposed grant/project submission guidelines).

In order to appropriately plan and support this grant/project initiative, all involved offices need to be informed of the intended grant or project submission. Please submit this form along with any accompanying documentation or webpage links that will assist them in understanding the breadth and scope of the intended grant, contract or project:

9/2010

Estimated Budget :

If your grant application is successful, will it require human or animal subjects for research?

What other (if any) specific sources of support do you hope to obtain for your project/grant?

It is suggested that some Administrative support and/or involvement be associated with projects and grants, even if it is only during the planning phase.

Please indicate your needs for support:
